## Product Design Manager

[joelg333@gmail.com](mailto:joelg333@gmail.com)

With years of experience in SaaS and AI-driven products for global teams, I collaborate closely with product and engineering to design experiences that support product decisions and business goals.

I recently led the design of an AI-powered marketing content generation product for global audiences, focused on speed, consistency, and quality.

### EXPERIENCE

#### Marketfully Product Design Manager

Aug 2025 - Aug 2026

Contribute to product definition and prioritization alongside product and engineering, sharing ownership of objectives aligned with company goals. Lead the design team and the end-to-end design process, and guide exploratory work on AI-based solutions in collaboration with AI engineers.

#### GetGloby Principal Product Designer

Apr 2022 - Jul 2025

Led the evolution of *GetGloby's platform* from MVP to a scalable SaaS product. Built and led the design function, working directly with the founders and contributing to product strategy, cross-functional coordination, and design during the company's acquisition by *Marketfully*.

#### Dickey's Barbecue Senior Product Designer

May 2021 - Dec 2021

Led design for web and mobile products across *Dickey's brands*, partnering with cross-functional teams to elevate the customer experience and drive ecommerce adoption.

#### Centric Digital Senior Product Designer

Apr 2014 - Apr 2021

Joined *Centric Digital* in a junior role and progressed into a *Senior Product Designer*, contributing to enterprise and startup projects. Delivered web and mobile products for clients such as *AIG*, *Kaiser Permanente*, and *Humana*, and led branding initiatives including the *Dummies* brand.
