

Joel Gutiérrez

Product Design Manager

joelg333@gmail.com

With over a decade in the industry, I direct product design from *strategy* through *execution* for SaaS and enterprise companies. I work directly with engineering, marketing, and ops to ensure what we build moves the needle. I run my teams with clear standards and a strict focus on *business logic*. We use AI to accelerate testing and delivery, and we build *AI features* that give users smarter tools.

EXPERIENCE

Marketfully Product Design Manager

Apr 2022 - Aug 2026

Led the platform from MVP to scalable SaaS through its acquisition by Marketfully, collaborating with teams across the U.S. and Europe. Defined team structures, technology stacks, and product roadmaps while partially managing development. Built and led an AI team to deliver AI solutions.

Rehab Boost & Golf Boost Principal Product Designer

Apr 2019 - Jul 2022

Designed iOS apps that used body recognition to detect movements and provide feedback. Built the design system, branding and experience for both products: a golf training app and a rehabilitation exercise app.

Dickey's Barbecue Senior Product Designer

May 2021 - Dec 2021

Designed mobile app and web features across Dickey's restaurant brands, collaborating with design and product teams in Croatia, developers in Argentina, and managers in the U.S. Led Barbecue at Home, an e-commerce subscription service delivering curated barbecue boxes to customers' homes.

Centric Digital Senior Product Designer

Apr 2014 - Apr 2021

Grew from *UI Designer* to *Senior Product Designer*, designing websites and mobile apps for *AIG*, *Kaiser Permanente*, *Humana*, and *Victoria's Secret*. Worked on complex, often regulated products, running workshops and global code-a-thons with *AIG* to align design, engineering, and stakeholders.
